### User manual

A Steppie Desk Riser aims to create an ergonomically sound home workplace.

- ✓ It transforms kitchen or dinner tables into an adjustable desk
- ✓ No assembly, straight out of the box and ready to use
- ✓ Simple and seamless height adjustment
- ✓ Stable at full height
- ✓ Easy to fold and stow away
- ✓ Takes up little space while folded and fits behind a door
- ✓ Large plate ensures *full* forearm support, essential for good ergonomics
- ✓ Tested at the Technical University of Denmark for functionality and safety
- ✓ Should be used with *keyboard and mouse* - *not* directly on the Laptop
- ✓ Should be used with a *Steppie Balance Board*, which ensures a dynamic rather than a static position while standing

For additional user instructions, tips and tricks, see separate user manual.

### Unintended impact, safety and complaints

In the event of any accidental impact using Steppie Desk Riser, please notify the retailer so they can pass it on to Steppie ApS.

Similarly, any questions regarding safety or complaints should be passed on to Steppie ApS as soon as possible.
